

HOUSING ACTION PLANNING WORKSHEET
Comp Plan Training 4-15-19

GOAL = Bayfield provides housing opportunities for a range of income levels and accessibility to support the well-being of a diverse year-round population that includes families, seniors, and employees in local businesses.

*Review Comp Plan (pp. 20-21) and Equity reflections from the World Café exercise.

PROPOSED ACTION _____

GUIDING PRINCIPLES considered

- **Education**
- **Equity**
- **Health**
- **Sustainability**

SOCIAL DETERMINANTS OF HEALTH addressed (see other side for list)

- **Economic Stability**
- **Social & Community Context**
- **Health & Health Care**
- **Neighborhood & Built Environment**
- **Education**

HOW DOES THIS ACTION SUPPORT THESE GOALS?

WHAT WOULD SUCCESS LOOK LIKE?

TABLE # ____

VISION: Bayfield considers health, equity, and sustainability in government decision-making processes, policies, and programs, to create a vibrant, engaged, and welcoming community for all residents and visitors.

EQUITY it is not the same as equality. Equity means that everyone has access to what they need to be successful; this may involve closing gaps that have developed between groups based on, for example, race and/or class, so that historically and/or institutionally disadvantaged groups are on equal footing.

HEALTH EQUITY means that everyone has a fair and just opportunity to be healthier. This requires removing obstacles to health such as poverty, discrimination, and their consequences, including powerlessness and lack of access to good jobs with fair pay, quality education and housing, safe environments, and health care.

SOCIAL DETERMINANTS OF HEALTH are conditions in the environments in which people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks. These conditions can be social, economic, and physical conditions in the environment; their settings can include school, church, workplace, and neighborhood. Patterns of social engagement and sense of security and well-being are also affected by where people live. Resources that enhance quality of life can have a significant influence on population health outcomes (see below).

Economic Stability
Employment
Food Insecurity
Housing Instability
Poverty
Social and Community Context
Civic Participation
Discrimination
Incarceration
Social Connectedness
Health and Health Care
Access to Health Care
Access to Primary Care
Health Literacy

Neighborhood and Built Environment
Access to Foods that Support Healthy Eating Patterns
Crime and Violence
Environmental Conditions
Quality of Housing
Education
Early Childhood Education and Development
Enrollment in Higher Education
High School Graduation
Language and Literacy

SUSTAINABILITY means addressing the needs of the present without compromising the ability of future generations to meet their needs. In 2001, the City of Bayfield adopted The Natural Step framework to guide its decision-making.
