## *Project Announcements – March 23, 2017*

---

The City of Bayfield would like to inform you about two City projects that will begin as soon as the weather permits:

### **Project #1 – Swede Hill Water Main Improvement Project**

This project includes the reconstruction of approximately 2,900 LF of aging and undersized water mains, approximately 450 LF of sanitary sewer, and approximately 150 LF of storm sewer.

Project Area Areas Include:

- 4<sup>th</sup> Street – Between Rice and Sweeny Avenue
- 5<sup>th</sup> Street – Between Manypenny and Rittenhouse Avenue
- 6<sup>th</sup> Street – Between Old Military and Rittenhouse Avenue (Hwy. 13 will be detoured)
- 7<sup>th</sup> Street - Between Manypenny and Rittenhouse Avenue
- Rittenhouse Avenue – Between 6<sup>th</sup> and 7<sup>th</sup> Street

This project will begin as soon as weather permits in Spring of 2017.

Construction Requirements:

- Milestone #1 – By June 30, 2017 the Contractor shall have completed and placed in service the Hwy. 13 water main and services, binder course, and curb and gutter.
- Milestone #2 – The Contractor shall not start construction or store materials on Fourth Street until after June 13, 2017.
- Contractor agrees the work will be substantially completed before July 30, 2017 and will be fully complete by August 31, 2017.

Please visit: [www.cityofbayfield.com](http://www.cityofbayfield.com) (home page) to see a project map.

#### ***Special Note to property owners in these areas - Water Laterals***

During Project #1, the City will be installing new water mains along portions of this project as well as replacing old services to the shut off. This may be a good time for you to consider replacing any old-lines you have to new ¾" or 1" copper water services before they start to fail. If you are interested, please contact a licensed plumber for a proposal.

## **Project #2 – City of Bayfield’s Waterfront Turning Point Park Project**

The primary purpose of this project is to re-develop the Waterfront "Turning Point" element at First Street and Wilson Avenue into a new park area. The project includes the construction of a portion of the missing Waterfront Trail allowing users to traverse alongside of Lake Superior, the construction of a fully ADA compliant restroom facility, the addition of a safe trail spur so users can safely access the highly used East Dock Park, and creates a new area for public outdoor recreation with the construction of a new park area featuring a donated fountain that will be located directly in the middle of the "Turning Point" area (that location of the City’s High-rise Restrooms).

**Project Area:** Intersection of First Street and Wilson Avenue  
(Heavily impacted areas include the Apostle Islands Marina, and the East Dock Park. Both will remain open but traffic may be limited at times).

This project is expected to begin as soon as the weather permits in Spring of 2017. The final completion date has been scheduled for July 28, 2017.

A special note of thanks and appreciation to the many lenders who are making the project a reality:

- Mary Rice – HRK Foundation
- State of Wisconsin Local Road Improvement Project
- Wisconsin Coastal Management Program
- Wisconsin Department of Natural Resources Stewardship Program
- Xcel Energy

And to the volunteers who worked so diligently to make this project a reality:

- Jim Bryan, Don Albrecht, Bill Peterson, Sharon Johnson, David Eades, Bob Durfey, Grandon Harris, Mayor Ringberg and Tom Kovachevich-PWD.

---

### ***Ongoing communication***

---

The City of Bayfield realizes the significant disruption these projects will cause and would like to keep you as up-to-date as possible. Therefore, we will continue sending e-newsletters to you during the duration of these projects.
